A. General

- The conditions stated hereinafter shall apply to all – even future – deliveries of goods and provisional services of BRABUS GmbH (hereinafter referred to as "BRABUS"). Conflicting General Terms and Conditions of the respective contractual partner are exclusively rejected. Such General Terms and Conditions of a contractual partner shall not bind us even if we did not object to them explicitly or if we provide goods or services without reservation although we know about contrary or deviating conditions.
- Deviations from our Delivery and Payment Conditions are therefore only binding, if they have been fixed in the respective contract in writing and have been confirmed in writing by us.
- The conditions stated hereinafter shall apply in general to all our contractual partners, i.e. all individuals or legal entities of associations of persons having legal capacity according to private law as well as legal entities of public law or public law special funds, regardless whether they are merchants as defined by HGB of entrepreneurs or consumers as defined by BGB. Deviating special provisions, in particular for consumers, shall be set out specifically.

B. Conclusion of contract

Our offers remain subject to being sold. Conclusions of contract and other agreements, in particular oral collateral agreements and guarantees of employees or representatives, may be binding only with our written confirmation.

C. Prices

- Our prices for deliveries are ex works, except as otherwise specified in our confirmation of order. Packing, freight, postage, insurance and delivery fees shall be charged separately.
- Prices for repairing, installation and other services are in principle chargeable with respect to the respective expense. However, manhours are chargeable with respect to the respective catalogue for working value in the event our respective price catalogue does not contain appropriate quotations. Respective decisive catalogue prices may be charged for employed parts.
- Price quotations in brochures and catalogues are only binding, provided such brochures and catalogues are still valid in the event of placing a purchase order and our confirmation of order does not state any deviations.
- Our respective stipulated gross prices shall be applicable for consumers. Statutory sales tax for price quotations are not included in business tradings with entrepreneurs or merchants. The statutory amount of such sales tax may be set out separately in the respective invoice.

D. Conditions for payment

- Except as otherwise specified in our confirmation of order, our invoices shall be paid until the 5th of the following month, in which the invoice has been issued, without any deduction. Invoices for repairing and installations for earmarked vehicles as well as invoices for deliveries of vehicles shall be paid before or with collection of such vehicles. Payments by cheque shall be done by LZB-cheque.
- In the event, the payment term pursuant to figure 1 sentence 1 is exceeded, the contractual partner will be in default. In such a case, we are entitled to charge interest amounting to 5 % over the discount rate of the European Central Bank towards consumers and interest amounting to 8 % over the discount rate towards other customers. The assertion of further damages caused by default remains reserved. Sec. 353 HGB remains unaffected.
- In case of part deliveries or part performances, BRABUS is entitled to refuse the performance of services still to be rendered under the contract in the event of a delayed payment of the contractual partner until the outstanding balances are settled. Further, BRABUS is entitled to demand cash on deliveries divergent to the provisions set forth in figure 1 regarding remaining services still to be provided.
- The non-observance of conditions for payment, occurrence of default or other circumstances minimizing the credit-worthiness of the contractual partner are entitling BRABUS to accelerate immediate maturity of claims arising from current business relations.
- The customer shall be entitled to offset if its counterclaims are based on the same contractual relationship. Moreover, the customer shall only be entitled to offset to the extent its counterclaims are acknowledged, undisputed or assessed in a legally binding judgment. The customer shall only be entitled to exercise a right of retention if its counterclaim is based on the same contractual relationship.

E. Term and dates of delivery

- Terms and dates of delivery are only approximately information, provided that such terms and dates have been designated in writing and explicitly as binding. The term of delivery for purchase order commences the day of confirmation of order by us. However, the commencement shall not be effected before clarification of all technical and commercial details as well as presentation of permissions, if necessary. Any modifications regarding the delivery of the contractual object requested by the contractual partner within the term of delivery shall interrupt and extend the term of delivery accordingly. Term of delivery in connection with the execution of installation, repairing and commissioning contract shall not commence before confirmation of order and placing at the contractual partner's disposal respectively availability of the vehicle to be executed with such works. As for the rest, the provisions as stipulated in sentences 2 and 3 apply correspondingly.
- In case of force majeure, such as delayed deliveries by the subcontractor, strike, lock-out, shortage of material, official actions as well as other acts of God, the respective term of delivery respectively term of performance shall be extended with the period between the commencement and the cessation of such event.
- In case of non-availability respectively non-performance of services caused by essential aggravation or impossibility, BRABUS is entitled to rescind the contract without being committed to claims for damages, if BRABUS has notified the respective contractual partner immediately about the non-availability of the contractual services and has undertaken simultaneously to compensate counterservices already collected. The contractual partner is authorized to demand a declaration whether we intend to rescind the contract or to deliver within a reasonable time limit after being notified about such occurrence. If we fail to provide such declaration, the contractual partner may rescind the contract. The contractual partner is not entitled to reject part deliveries or part performances, unless a legitimate interest for such rejection is given. Statutory claims of the contractual partner to be enforced in lieu of claims for damages or to be asserted simultaneously with a claim of damages remain unaffected.
- If BRABUS is in default with contractual services, the contractual partner is obliged to grant in writing a reasonable period of grace for performance. In case the contractual object is not or not completely delivered within such period of grace respectively the services are not or not completely rendered, the contractual partner has the right to rescind the contract after expiration of such period with respect to deliveries and services, which have not been delivered until expiration of such period of grace. Insofar, in delivery tradings the dispatch of the goods is equivalent to the delivery. If the contractual partner suffers damages caused by a delayed delivery BRABUS is liable for, BRABUS shall compensate the resulting and provable injury. However, such compensation is limited to 5 % of the net price of the delayed or omitted delivery or performance, unless BRABUS is liable for damages caused by intentionally or gross negligence. If the respective contractual partner not being a consumer asserts claims for damages in lieu of performance, such claims are excluded, unless BRABUS is liable for damages caused by intentionally or gross negligence.
- BRABUS shall be released from any observance of terms of delivery, if the contractual partner is in delay of payment of former orders or of part deliveries of an order, or fails to fulfill other contractual obligations.
- In case of dispatch, the day of dispatching the goods shall be considered as the date of delivery. In other cases, the day, on which the contractual partner receives notice about the readiness for dispatch, delivery or handing over of goods, shall be decisive.

F. Dispatch/risk in the goods

- The goods may be dispatched to the contractual partner or any named third person at the expense of the contractual partner.
- In case of dispatching the goods, the risk in the goods passes to the contractual partner as soon as the goods have left the works of BRABUS. In the event the goods shall be dispatched from a subsupplier directly to the contractual partner at the instigation of BRABUS, the same applies correspondingly. These provisions are applicable for part deliveries or in case BRABUS undertakes services of a different kind as well. They do not apply for consumers.
- In the event of delay of the dispatch due to circumstances which the contractual partner is liable for, the risk in the goods passes to the contractual partner upon the day of notice about the readiness for dispatch.
- BRABUS is entitled to insure the goods against transportation risk at the expense of the contractual partner. BRABUS is only obliged to insure the goods on the basis of a written agreement of the parties.
- Goods not being dispatched or other services may be received respectively collected from the contractual partner at the works of BRABUS within seven days, at the latest, of being notified that the goods are ready for delivery respectively collection. In the event the contractual partner fails to collect the goods, BRABUS is entitled to make use of its statutory rights.
- If BRABUS claims damages, such compensation shall be amounting to 15 % of the purchase price of contracts regarding new and second hand cars and 20 % of the purchase price of contracts regarding spare parts or other services. The compensation shall be calculated higher or lower, if BRABUS is able to furnish proofs of a higher damage or the contractual partner is able to furnish proofs of a lower damage.

G. Warranties

- The contractual partner is obliged to inspect delivered goods immediately upon receipt and to give written notice of a defect immediately at the place of destination or, at the latest, within 3 business days upon receipt. Latent defects shall be noticed immediately upon ascertainment. In the event the contractual partner fails to observe the time limit for notification of a defect, every possible claim regarding defects not being noticed or being noticed out of time are excluded, if the contractual partner is a merchant or a legal entity of public law.
- In case of faulty deliveries or services, BRABUS shall have the opportunity to inspect at its option the notified defects on the spot or at its places of business. The inspection shall take place immediately, if the contractual partner explains his interest in immediate settlement. Goods or services being found faulty shall not be modified without consent of BRABUS. Otherwise, the contractual partner may lose his claims based on warranty. Divergent from the foregoing provisions, remediation works of deficiencies can be executed by another professional work shop at the expense of BRABUS, if the following conditions are fulfilled:
 - If the vehicle is out of service due to a defect and has been removed more than 50 km from the plant of BRABUS and BRABUS has given consent prior to the placing of an order to the third work shop.
 - If an urgent case of necessity is given and BRABUS is not able to take remedial actions immediately. The obligation of the contractual partner to inform BRABUS about the defect stating the address of the commissioned plant remains unaffected.
- In the event defects have been remedied by another professional workshop, the commissioning order shall set forth that the execution of the remediation works is considered as such of BRABUS. It is imperative to make an entry that the dismantled parts shall be holding at BRABUS' disposal during a reasonable time limit. BRABUS undertakes to reimburse the provable arising costs of the contractual partner. However, the contractual partner is obliged to keep the costs of remediation works as low as possible.
- In case of provable material or implementation defects, BRABUS is entitled to remedy the defects free of charge or to replace free of charge or to credit the invoice value against return of the defective goods or to grant the contractual partner reduction of the purchase price by observing reasonably the contractual partner's interest. Deviating imperative provisions of law for the benefit of the consumers remain unaffected.
- If BRABUS fails to fulfil one of its refined obligations to perform subsequently (replacement/delivery of a substitute or rectification of defects) or does not meet such obligation according to contract or if the subsequent performance goes wrong, the contractual partner is entitled to the right of reduction of the purchase price or the right of rescission of the contract within the scope of the provisions of law. Deviating imperative provisions of law for the benefit of consumers remain unaffected.

- In the event that defects occur on vehicles which are made available to us for the purpose of executing structural alteration and/or actions for increasing efficiency and/or installation of special components like engines for increasing efficiency and/or special steering gear and/or of executing maintenance respectively repairing works, our warranty obligation is in principle limited to such installed parts respectively rendered services. Divergent to the provisions as set forth above in figure 3, BRABUS is obliged to remedy provable material or implementation defects. This obligation to remedy defects includes vehicle parts not being provided by BRABUS, if such parts have been directly injured or damaged due to the respective material or implementation defect.
- Other or further claims of the contractual partner, in particular claims for compensation of handling costs, costs relating to installation and dismantling as well as damages not relating to the delivery object (consequential damages), are excluded, provided that they are permitted by statute. Deviating imperative provisions of law for the benefit of consumers remain unaffected.
- In case line sample has been sent in to the contractual partner, BRABUS is only liable for the circumstances that the delivery will be executed in accordance with the inspected line sample in the light of any adjustments (stipulation of quality by line sample).
